VOICE OF ÖZÜBERK

Şehit Hasan Özüberk High School

Appeal to youth

Turkish Youth, Your first duty is to preserve and to defend Turkish Independence and the Turkish Republic forever. This is the very foundation of your existence and your future. This foundation is your most precious treasure. In the future, too, there may be malevolent people at home and abroad, who will wish to deprive you of this treasure. If some day you are compelled to defend your independence and your Republic, you must not hesitate to weigh the possibilities and circumstances of the situation before doing your duty. These possibilities and circumstances may turn out to be extremely unfavourable. The enemies conspiring against your independence and your Republic may have behind them a victory unprecedented in the annals of the world. It may be that, by violence and trickery, all the fortresses of your beloved fatherland may be captured, all its shipyards occupied, all its armies dispersed and every corner of the country invaded. And sadder and graver than all these circumstances, those who hold power within the country may be in error, misguided and may even be traitors. Furthermore, they may identify personal interests with the political designs of the invaders. The country may be impoverished, ruined and exhausted. Youth of Turkey's future, even in such circumstances it is your duty to save Turkish Independence and the Republic! You will find the strength you need in your noble blood

H. Atatürk

Life of Martyr Hasan Özüberk

B y E d i t o r

He was born in Kilis in 1970. He completed primary education at İnönü Ziraat primary school. After graduating from Kilis High School, he started military service in Ankara. He was married and had two children. He worked in various cities in Turkey. Hasan Özüberk died in Tunceli–Nazmiye Sarıyayla while commanding position on the 30th of April 2010 as result of a brutal terrorist attack. This great hero will be in hearts forever.

Tuğba Baltacı

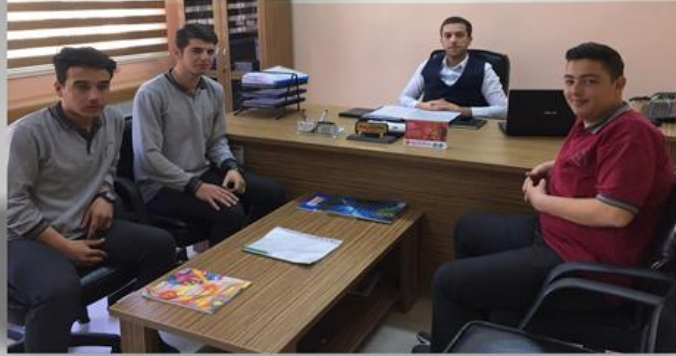

This school magazine would not exist without the efforts and kindness of many people because preparing an English school magazine was impossible for my students in the beginning. They could say that

Dilek Sevinç
ELT

Mrs. Sevinç, this was very hard work. I believe everytime that beginning is half of success. Firstly, I would like to extend heart felt thanks to my director, teachers and students with deep gratitude for their boundless kindness, generosity, inspiration and friendship. And to my parents, in loving memory, for providing idea for writing a magazine. My sincere thanks extend to many people. Their support and assistance caused to feel good myself in many ways. To the many students who worked so hard in this Project, preparing a magazine was a rewarding experience. Besides, many of dedicated volunteers students for their tireless efforts on behalf of those who wanted to create a different thing, I thank very much again again. Their wonderful staff, for their encouragement, kindness, dedication, help in many aspects of this Project, and hard work above and beyond the call of duty. I owe them a special debt of gratitude. While we were writing this magazine, sometimes we laughed sometimes we thought what else can we add to our magazine? We worked to add every part which must be in a magazine. At the last we prepared something. From now on we are sorry for you if we have mistakes. Besides, we are waiting your comments on our facebook adress and we hope "Voice of Ozüberk" will not be first English in Kilis.

INTERVIEW

Yunus Emre Köseoğlu
Ümit Yaşar Çiloğlu
Mehmet Yılmaz Barakoğlu

Students:How did you decide to be the school assistant of principal?

Hasan Teacher: Ever since beginning of my first career, I've been thinking to be director in education system. Then I started to work in this school as teacher and then I have continued as assistant of principal.

Students: What are your expectations from students and parents?

Hasan Teacher:Firstly, We should see students and school as a family. While observing students' improvements,we should provide them to obey to school rules moreover; we expect from the parents to contact with us every time.

Students: Have you ever put on students'shoes yourself?

Hasan Teacher:I have tried to understand them by putting on their shoes myself . I have preferred to solve problems by talking not by punishment. Punishment is never solution for me.

Students: Would you like to continue to meet to teachers or students in social life?

Hasan Teacher :Sure.I think friendship is important everytime in my life. Focusing on respect and love,I would like to meet my teacher friends and students everytime.

Students: Would you like to be a different profession?

Hasan Teacher:I am satisfied with my profession that I have already been doing.Teaching is an incredible feeling for me.

Students: What do you think about literature of today as a literature teacher?

Hasan Teacher: It is not possible for assessing today's literature under the present conditions.If the adequacy of a literary work is measured by the society not only a small of community,it is accepted at every period of time. But my belief is that ;some of the contemporary literary works has been published today will allow us to explore the history of literature in the future.

Students: What is the best thing for you in our school ?

Hasan Teacher: The best thing of our school is that a large majority of students, teachers, administrators and parents behave within a family consciousness.

Students:Thank you for this nice interview.

Hasan Teacher:I also thank you due to joining in this newspaper Project.

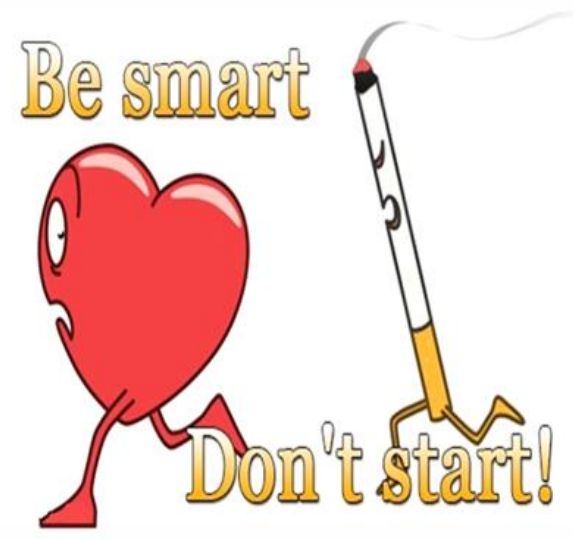

Smoke Killer

Why You Should Not Smoke

stop smoking! I am sure that you know that smoking harms your body. Then why do you continue smoking? Maybe you do it because you haven't really become conscious about all the effects that smoking has. There are a lot of reasons why you shouldn't smoke. Some of them are that smoking affects your health, that you spend a lot of money on cigarettes, and that when you smoke you are not respecting people around you. The first reason why you shouldn't smoke is that smoking affects your health. If you smoke, your physical condition will be negatively affected, so it will be very difficult for you to succeed in sports. Also, smoking produces lethal diseases like cancer and reduces the length and quality of your life. Maybe you don't notice all the physical effects of smoking immediately, but you surely will be sorry one day. The second reason why you shouldn't smoke is because of all the money that you spend on it. Maybe you start smoking only when someone offers you a cigarette, but there will be a day when you will feel the need of a cigarette. By this time, you will pay whatever to smoke, and each time you will smoke more, so you will spend more money. All the money you would spend on cigars could have been spent in something better, don't you think? The last reason why you shouldn't smoke is out of respect for the people around you. When you smoke, you not only harm yourself, but you also harm all the people around you. So you mustn't be selfish; you should at least avoid smoking in front of people who don't smoke. Also, many people don't like the cigarette's smell, so they won't enjoy your company. Would you like that? I have said just some reasons of why you shouldn't smoke, so I hope that now those of you who smoke are able to think a little and try to make a smart decision. In addition to all the reasons I've said, I would like you to think about how much you love yourself and then whether you want to continue harming yourself. Think also about all the people who love you, like your family who doesn't want to see you suffering or sick. If you decide to continue smoking, what a pity. But if you decide to stop smoking, congratulations! Remember that "If you can dream it, you can do it."

Ismail Onarici

Magnificent teachers are in our school.

Achievement is our aim.

Recommend to everybody this school!

Teacher staff is very nice.

Remember your duties!

Youth! Studying is our aim.

Hours are passing.

Any more time is running.

Sometimes things that hurt you most, teach you the greatest lessons of life.

A heart that loves young.

Nothing is permanent in this world, not even our troubles.

On the clock eight lesson starts.

Zero is important in math lesson.

Unhealthy life lasts in biology lesson.

Books are our best friends

English teacher is number one.

Running is healthy in P.E. lesson.

Key of success is studying hard.

Art and music are given us as a social activity.

Neither hate nor violence is in the classes.

All the students are very happy at the school.

Teachers are very helpful for their students.

Opportunities are supplied all the time.

Learning a new subject is the main aim of the students.

Idealist teachers come to this school.

And headmaster is the most disciplined person at the school.

Nothing gives worry us.

High success is expected from us.

Improvement of students is very important.

Going to school is enjoyable not boring.

History of the school is Hasan Özüberk.

Students are the most important members of the school.

Curriculum shows which subject is taught for students.

Hours are running quickly.

Of course all the students are very clever.

Opportunities are created everytime to us.

Love and respect to all of our teachers.

**Saadet Türkay
Feyza Nur Şahin**

Broken Heart

I give my heart to you to have it.

My love needs to be repaired.

My heart will stop for you.

But I am waiting you to come.

You stole my heart.

I cry for you everyday.

I can fire the earth.

All birds cry for us.

I want to see you everyday.

Who loves you like me?

I think what are you doing now?

I only miss you every minute.

Muhammet Can Demir

QUESTIONNARE

1)Are you satisfied with the teacher staff?	%85	%15
2)Do you have social activities?	%90	%10
3)Is your school an ideal school?	%80	%20
4)Can you say that our school is the best school in Kilis?	%80	%20
5)Would you recommend our school to 8th grade students?	%70	%30
6)Do you get pleasure from lessons at school?	%80	%20
7)Do you believe that our school will do good things in the future?	%70	%30
8) what do you think about our school education?	%85	%15
9)Can you say that school has a family environment for you?	%60	%40
10)Do you think our school is clean enough?	%95	%5

Fatma Bozkurt

AFRIN

We live in Kilis which is located in the South east of Turkey. We are Turkish citizens. We have very old and a magnificent history. We are such a powerful and beautiful state that everybody is watching us. And they are really jealous of us. We are getting stronger as you see it.

Now Afrin problem has occurred. We can say that our enemies try to make us weak but this is impossible. We are never afraid of nobody. We are believers of it. Because what keeps us strong is our faith. If we do not believe, we die.

We are soldiers of Atatürk. We will not allow those who want to destroy our country. As the great leader Mustafa Kemal Atatürk said, they will go as they come. We are Turkish youngs! Our duty is save our flag, country, future!

Samet Faydalı

Technology In Our Lives

The issue of technology being a part of modern life is a controversial one. Some feel that the contribution of technology has made a positive impact in modern life and that technology helps improve the quality of life. Others see that contribution of technology has negatively impacted modern life and that technology is a force that has escaped from human control. I believe that the contribution technology has made to modern life has been positive; technology helps improve productivity in manufacturing, quality of life, and education.

Technology helps improve productivity at work by allowing manufactures to produce more in less time using less manpower. Many simple tasks that workers used to do are now done by robots. For example, the robotic arm seeing on a modern garbage truck enables the trash collection process to be done by one man on otherwise a two-men job.

Next, technology helps improve the quality of life by doing many of our mundane tasks so that we can spend more time on things that matter to us. Home appliances take care some of the daily chores such washing dishes, doing laundry, and making coffee automatically, just to name a few. Refrigerator keeps food to stay fresh longer therefore it minimizes the number of trips to the store. Microwave enables food to be warmed up in just a matter of minutes.

Lastly, technology helps improve school. Computers are used by schools across the country to help improve student learning ability. Computer simulation is used in flight school to allow students learning to fly without risks of accidence. Schools use computers in testing environment to allow students taking self-assessment test and getting instant feedback. Many students use the internet for research or getting online help.

In conclusion, the contribution of technology benefits modern life in so many ways. At work, technology enables manufacturings to produce more in less time using less manpower. At home, technology helps doing some of daily chores so that time can be spent on more important things. In school, technology is used as tools to improve student learning ability. Therefore, I believe the contribution technology has made to modern life has been positive.

Semra Çabuk

DO YOU KNOW?

Nearly all of our life is affected by foreign words of foreign language from shopping centers to hospitals, from restaurants to apartments, from cafes to signs. Why isn't the richness of Turkish language reflected on signs and brands? Turkish language is the 5th most spoken language in the world?

ONLY TURKISH CAN UNDERSTAND THIS TEXT

M.Can was a very heavy headed boy. His father was a middle stationed man. To make his son read in good schools he did everything coming from his hand. He took everything to eye. His mother was a house women. Every job used to come from her hand. In making food there was no one on top of her. The taste of the observations (gözleme) she made you eat your fingers. This women made her hair a brush for her son.

When Hasan became sick, she cried her two eyes two fountains. When Hasan finished lycee he wanted to be a tooth doctor and he entered the niversity exams and won tootherness school.

In the school he meet Jale. Hasan was hit to Jale in first look but Jale was not hit to him in the first look. However her blood boiled to him. A few weeks later they cooked the job. Jale's father was a Money-father . He turned the horner Money years ago by making dreamy export. But Jale was notlike her father. She was a very low hearted girl. Her father was wanthing to make her marry to his soldierness friend's son Abdurrahim. Abdurrahim first school and didn't read letter. He became a rough uncle. He started to turn dirty jobs when he was a crazy bloded man. He was his mother's eye. He said, 'HIK' and he feel from his father's nose. So theree under, five up he was like his father. When he saw Jale, he put eye to her. His inside went. His mout got watered. His eyes opened like a fortune stone. To be able to see Jale, Hasan's inside was eating his inside. Finally, together they went to a park.

When they were wrinkling in the park, Abdurrahim saw theme. First he pulled at deep inside. And then his eyes turned. He couldn't control himself. He wanted to sell them to the 'Village with wood', but he collected himself. He decide to leave them head to head. At the moment devil poked him. He first to the devil, pulled this gun and fired. However, a man passing stayed under lead rain and porman. Went to who hit. He planted the horseshoes.

Than the mirroless ' came. They took all of theme under eye. Jales inside was blood crying. They man died eye seeing. And so, this job finished in the blackarm(Karakol).

VOICE OF ÖZÜBERK

Şehit Hasan Özüberk High School

BASKETBALL

There is a basketball court in our school.
Our basketball team has many championships.
There is also a volleyball court in the basketball court.

TABLE TENNIS

We have about six tennis tables in our school.
Students prefer to play table tennis in leisure time. The
tennis team is training very hard before the games.
Table tennis school team consists of 6-7 people.

FOOTBALL

There is a football field in our school. It is regularly cleaned by staff.
Most students in the school play soccer in physical education lesson and
leisure time we have many championship prizes because our football
school team is strong and successful.

REWARD CORNER

My school has trophies and medals in many sports fields
All accomplishments has been presented here since 2011.

Hi, I am Dilara GÜLKURUSU. We started a project named "WEB 2.0 tools" with our English teacher Dilek SEVİNÇ in November. Our Project named "WEB 2.0 tools" is known as educational tools. This project consists such as Word clouds, mind maps, games, creating avatar, comic books and many other things... We share a new thing everyday on Twinspace. This Project provided an incredible experience on my life. I have made lots of friends from abroad and domestically. I am still in communication with them. At the end of the project there will be very nice quality awards. Thanks to my English Teacher Dilek SEVİNÇ to provide to participation to this successful Project and rely on me
